

Huameilong offers a complete line of accessories to customized your material handling industry.

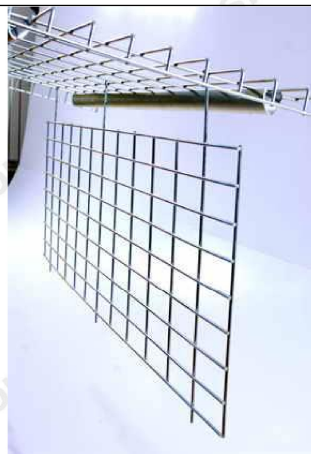

PP sheet, wheels and security lids are just a few of common use accessories available for purchase. Other metal accessories, like post protectors, dividers, pallet support bars, are also made to fit your specific storage application.

Our design team will work with you to have the best material handling solution for your application

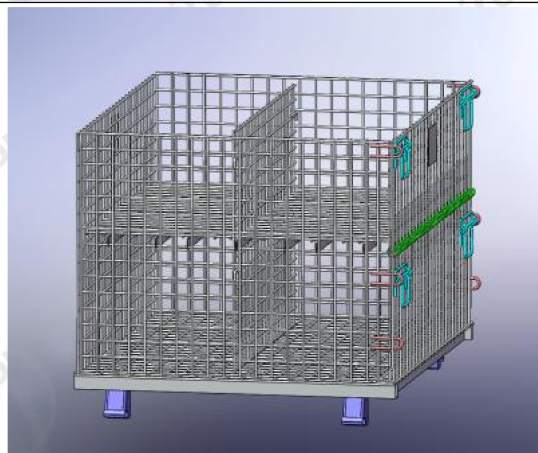

➤ Snap-in divider (works with wire decking)

Galvanized wire panels that fit within the wire mesh pattern used by the deck. They simply clip in place in seconds and create sections within your bays to help divide products on a single deck.

➤ Hanging divider (works with wire deckign)

Dividers clip onto wire decking create partitions between items, allowing you better organize your stock. These dividers are designed to be made for either front to back or left to right applications. The design allows for quick and easy installation.

➤ Dividers (work with wire container)

Front-to-back or left-to-right. Allows for multiple products to be stored in one container for maximum utilization.

450L mm × 900W mm; mesh size 50×100 mm; 1350Lmm × 400W mm, mesh size 50×100 mm
